**JUNGHANS UHREN GMBH**

Die JUNGHANS Uhren GmbH ist heute der drittgrößte Quartz-Großuhren-Produzent der Welt.

Über 300 Millionen Uhren wurden produziert. Mehr als 3.000 Patente zeugen von der Innovationskraft dieses traditionsreichen Unternehmens. Eine der modernsten, automatisierten Uhren-Produktionsstätten ermöglicht heute die Fertigung und Herstellung von mehr als 60.000 Uhren und Werken pro Tag, die in über 50 Ländern der Erde verkauft werden. Ständig orientiert an modernster Technologie, entstehen bei JUNGHANS elektronische Armbanduhren, Wecker, Wohnraumuhren und Quartzwerke mit einem Höchstmaß an Qualität, Präzision und Funktionalität.

Heute mehr denn je, hat JUNGHANS seine industrielle Uhrenfertigung auf Technologien abgestimmt, denen die Zukunft gehört.

So gingen 1985 die weltweiten, batterielessen Solar-Wohnraumuhren in Serie. Mittlerweile zählt auch das JUNGHANS-Solar-Armbanduhren-Angebot zum ausgereiftesten und umfassendsten im Markt.

Funkgesteuerte Analoguhren mit speziellem IC überzeugen durch vollautomatische Zeiteinstellung und permanente Präzision von einer Sekunde in 1 Million Jahren.

Die JUNGHANS RCS 1, die erste funkgesteuerte Solar-Quartzuhr der Welt, steht als Beweis für die JUNGHANS Kompetenz im Bereich zukünftiger Zeitmeßkonzepte.

**JUNGHANS UHREN GMBH**

The JUNGHANS Uhren GmbH is today the third largest quartz-clock manufacturer in the world.

Over 300 million clocks were manufactured. More than 3.000 patents prove the innovative strength of this company which is steeped in tradition. One of the most modern, automated clock production plants makes it possible today to fabricate and manufacture more than 60.000 clocks and movements per day, which are sold in more than 50 countries throughout the world.

Constantly oriented toward the most modern technology electronic wrist watches, alarm clocks, domestic clocks and quartz movements are produced with a high degree of quality, precision and functionality.

Today more than ever, JUNGHANS have adapted their industrial clock fabrication to technologies of the future.

In 1985 the first solar domestic clocks in the world, which do not require batteries, went into production. The JUNGHANS solar wrist watch offer is now one of the most perfected and most comprehensive on the market.

Radio controlled analogue clocks with special IC are attractive because of their fully automatic time adjustment facility and permanent precision of 1 second in 1 million years.

The JUNGHANS RCS 1, the first radio-controlled solar-quartz clock in the world is proof of the JUNGHANS competence in the area of future-oriented chronometric designs.

JUNGHANS. Die Philosophie einer Marke. Mit einem Bekanntheitsgrad von über 90% ist JUNGHANS die bekannteste Uhrenmarke in Deutschland. Zudem steht sie in über 50 Ländern der Welt als Symbol für Qualität, Zuverlässigkeit und für Innovationen in Technik und Design.

Für Made in Germany.

Seit 126 Jahren haben alle Uhren der Marke JUNGHANS eines gemeinsam: hohes Qualitätsniveau, Präzision und Perfektion.

Was sie unterscheidet, ist jedoch die stets auf die unterschiedlichen Käufergruppen und deren Anforderungen abgestimmte Funktion und Gestaltung.

Jüngstes Beispiel für diese vollendete Harmonie aus hochmoderner, zukunfts-orientierter Technik und individuellem Design stellen die JUNGHANS Solar- und Funkuhren dar.

**Trade Mark Philosophy.**

The JUNGHANS trade mark is the most well known make in Germany with a degree of notoriety of over 90%. Millions of people have timepieces of this make and would buy them again. The JUNGHANS make is the symbol for »Made in Germany«,

for quality, reliability and also for innovation in technique and design in over 50 countries throughout the world. JUNGHANS Uhren GmbH manufacture timepieces in line with the requirements and desires of the consumers of today in their design and technique and which are on offer in target-group collections.

The high degree of quality of this timepiece make with its 126 year old tradition is the basis for all types of timepieces – wrist-watches, alarm clocks, domestic clocks – function and design, however, offer the large variety of purchasing groups the highest possible degree of identification and individuality.

Timepieces with the most modern, future-oriented technology such as solar and radio-controlled clocks

emphasize these standards.

## JUNGHANS wrist watches

Ranges aimed at target groups

The (almost) immeasurable offer of watches for the consumer today prompts him to change his selection and thus his purchasing behaviour. Increasingly spontaneous, choosing with "the eye", he buys the watch which corresponds to his perception of life, best fulfills his fashion or functional requirements. The design of the watch and the presentation aimed at the target group clearly rank therefore before price and quality, which of course he presumes like functionality and precision. The notoriety of large brand names give him security in his choice from the confusing variety of similar watches. He expects these recommendations of brands particularly in the specialist shop – in addition to specialist advice and service.

Therefore JUNGHANS wrist watches are offered in ranges aimed at the target groups in the most sales-boosting price brackets of the specialized trade.

- COMPACT – The functional watch for every day.
- ATELIER – The modern, elegant watch for the critical aesthete.
- GRAND PRIX – The sporty-elegant watch for the casual and informal outfit of the self-confident buyer.
- NOBLESSE – The elegant-high quality watch for special occasions.
- HIGH TECH – The technically exclusive watch for the individualist, for people with a discerning mind.

## JUNGHANS »Solar 1« The clock with futuristic technology

The solar watch is undoubtedly part of the market segment which is growing quickest. Clocks of this modern technology symbolize even in the design, the individuality which the buyer is looking for. However, SOLAR technology also signifies for him the confrontation with the environmental and energy problems.

SOLAR is the "zeitgeist" in the true sense of the word, with which it identifies itself. Therefore, JUNGHANS as leading seller of solar watch will also make available the "Blue Environment Angel" as well as special decoration material for this purchasing group. Intensive advertising will also guarantee the success of the »SOLAR 1« in 1988.

COLLECTION »High Tech«

The technically exclusive watch for the individualist, for people with a discerning mind.

Our cars are becoming more and more alike. Our towns are dressed in uniform concrete. We have all almost become accustomed to the fact that our life has become more and more standardized. Maybe this is why we look for things which distinguish us, which show a face among the crowd. This is why the JUNGHANS "HIGH TECH" was created for people with a discerning mind. For a growing class of buyers of self-confident, efficiency-oriented people who know precisely what they want: efficiency counts – not superficial prestige articles. The best at a reasonable price. The purchasing group is looking for the technically innovative new watch, the individual watch not just anywhere but in the environment of the security of trade-marked watches, of specialist advice and service of the specialist business. The right presentation of these watches – to which the SOLAR watch also belongs – is an important sign for competence with which this ever-growing group of clients with high spending power may be appealed to successfully.

COLLECTION »Compact«  
 The functional watch for every day.

One in three wrist watches sold by German specialized dealers is a COMPACT class model. Alongside value for money, what the customer demands is the reliability and quality which are associated with the traditional name of JUNGHANS. Which is why JUNGHANS, with its growing market share, is once again number three among the top watch producer names in Germany.

## JUNGHANS alarm clocks

Ranges aimed at target groups

Today, people do not plan to buy alarm clocks but buy them spontaneously. Design and price are decisive purchase criteria for different purchasing groups. But – particularly in purchasing in the specialist shop – the well-known trade mark and the functionality of the alarm clock plays a more and more significant role. Genuine quality and specialist advice is expected here. As leading alarm clock brand JUNGHANS is offering special product lines for the most important alarm clock target groups which live up to a large variety of purchasers' expectations in design, function and also in the price.

- STUDIO – The modern alarm clock
- NEW YORK – The young alarm clock
- NOBLESSE – The elegant, high-quality alarm clock
- BOUTIQUE – The fashionable alarm clock
- CLASSIC – The classical alarm clock

»STUDIO«**

**THE MODERN ALARM CLOCK**

Modern design to encourage purchase, form and colour as a signal for unconventionally thinking customers. That is the "STUDIO" collection's recipe for success. In the colours of current furnishing trends, matching the look of modern bedrooms, these alarm clocks act as a tonic when compared with the confused monotony of the rest. Individuality, just like the customer ordered.

COLLECTION  
»NEW YORK«

142/0081 5,6 x 6,0 cm

THE YOUNG ALARM CLOCK

With the "New York" collection, JUNGHANS has created a range of alarm clocks for young customer groups. Clear lines, interesting color combinations and appropriate pricing are the reasons for this collection's high acceptance factor. Their fresh and colorful faces have been imitated – but only the originals have the JUNGHANS star. For younger buyers too, this is the symbol for "Made in Germany".

140/0628 9,4 x 9,0 cm

COLLECTION  
»NOBLESSE«

THE STYLISH ALARM CLOCK

Stylish living also expresses itself in a desire for stylish accessories, for elegance and value in detailed workmanship. The alarm clocks in the "Noblesse" collection were created for this customer target group. They take into account the preference of these customers for a design which is out of the ordinary and which "hides" the alarm-clock's actual functionality.

## Industrial Timers and Stop Watches

Wherever simple, accurate and reliable timing is needed:  
JUNGHANS Industrial Timers and Stop Watches.

310/4460 12,2 x 13,2 x 9,0 cm

312/4810 12,2 x 14,0 x 7,5 cm

310/4560 12,2 x 13,2 x 9,0 cm

312/4811 12,2 x 14,0 x 7,5 cm

**310/4460**  
Mechanical timer. Case front part made of ABS material, lacquered metal back. Total running time up to 60 minutes, continuously adjustable with pointer. Accuracy:  $\pm 1/2$  section of the minute scale.

**310/4560**  
Mechanical timer with preselection. Case front part made of ABS material, lacquered metal back. Preselection ring adjustable. Total running time from 2 - 57 minutes or for 60 minutes. Accuracy:  $\pm 1/2$  section of the minute scale.

**312/4810**  
Mechanical timer with minute scale and sweep seconds hand. Luminous figures. Time periods from 1 second to 60 minutes. Accuracy:  $< \pm 5$  seconds in 60 minutes (20° C = 68° F). Running time: 20 hours. Metal dial. Case front part made of ABS material. Metal back. Back key winding.

**312/4811**  
Mechanical timer with minute scale and sweep seconds hand. Luminous figures. Time periods from 1 second to 60 minutes. Accuracy:  $< \pm 5$  seconds in 60 minutes (20° C = 68° F). Running time: 20 hours. Metal dial. Case front part made of ABS material. Metal back. Back key winding.

## Industrial Timers and Stop Watches

Wherever simple, accurate and reliable timing is needed:  
JUNGHANS Industrial Timers and Stop Watches

312/2850 21,5 x 25,0 x 10,0 cm

312/2840 21,5 x 25,0 x 10,0 cm

312/2851 21,5 x 25,0 x 10,0 cm

**312/2850**  
Mechanical table timer with minute dial and sweep seconds hand. Luminous figures. For recording periods from 1 second to 60 minutes. Accuracy:  $< \pm 5$  seconds in 60 minutes (20° C = 68° F). The clock runs for 20 hours on one winding. Metal dial with 60 seconds, 1/100 minute, and 60 minutes graduation. Lacquered metal case. Movement is wound with key on back.

**312/2851**  
Mechanical timer for wall mounting with seconds and minute hands. Luminous figures. For recording periods from 1 second to 60 minutes. Accuracy:  $< \pm 5$  seconds in 60 minutes (20° C = 68° F). The clock runs for 20 hours on one winding. Metal dial with seconds, 1/100 minute, and 60 minutes graduation. Lacquered metal case. Movement is wound with key on back.

**312/2840**  
Same model as 312/2851, but with grey case and dial.

**COLLECTION  
»REPLIKA«**

The classical clock

Hardly anyone can resist the fascination of original reproduction clocks. With the "Replika" collection, JUNGHANS is meeting the buyers demands for antique pieces and "classical clocks", buyers who are prepared to invest a great deal of money to obtain a valuable individual piece. With models from the "Replika" collection, you are therefore attracting a group of customers with particularly high purchasing power.

Es gibt kein schöner, mehr die individuelle Uhr, die einen ganz persönlichen Wert hat. Einmalige, handgefertigte Meisterwerke, die sich nicht nur durch ihre Schönheit auszeichnen, sondern auch durch ihre Funktion. Die meisten Uhren sind heute noch handgefertigt. Das ist ein Zeichen für Qualität und Leidenschaft. Die Uhren sind nicht nur ein Zeitmesser, sondern auch ein Kunstwerk. Sie sind ein Teil unserer Kultur und unserer Geschichte. Sie sind ein Symbol für die Zeit, die wir leben. Sie sind ein Teil unserer Identität. Sie sind ein Teil unserer Seele. Sie sind ein Teil unserer Liebe. Sie sind ein Teil unserer Hoffnung. Sie sind ein Teil unserer Träume. Sie sind ein Teil unserer Leben. Sie sind ein Teil unserer Welt. Sie sind ein Teil unserer Menschheit. Sie sind ein Teil unserer Zukunft. Sie sind ein Teil unserer Hoffnung. Sie sind ein Teil unserer Träume. Sie sind ein Teil unserer Leben. Sie sind ein Teil unserer Welt. Sie sind ein Teil unserer Menschheit. Sie sind ein Teil unserer Zukunft.

368/6389 28,5 x 33,5 cm

**324/1020 »Bim-Bim«**  
Kleinregulator, Ende des 19. Jahrhunderts, massives Holzgehäuse, schwarz lackiert und mit feinen Goldlinien verziert, Mineralglas, mechanisches 8-Tage-Werk mit halbem und vollem Stundenschlag auf Tonfeder, klassischer Rostpendel.  
Small wall clock, end of the 19th century, solid wood case, painted black and decorated with fine golden lines, mineral glass, mechanical eight-day movement, every hour and half hour struck on a gong, classical grid pendulum.

**324/1021 »Bim-Bim«**  
Großregulator, Ende des 19. Jahrhunderts, massives Holzgehäuse, Nußbaum furniert mit schwarz lackierten Verzierungen, Mineralglas, mechanisches 14-Tage-Werk auf Tragstuhl mit halbem und vollem Stundenschlag auf Tonfeder, klassisches Rostpendel.

**324/1023 »Bim-Bam«**  
Pendule im klassischen Stil, um 1870, massives Holzgehäuse mit integriertem Sockel, Kirschbaum furniert, mechanisches 8-Tage-Werk mit halbem und vollem Stundenschlag auf 2 Glocken, (Bim-Bam), Pendellinse, Messing poliert, Mineralglas.  
Classical-style pendulum clock, around 1870, solid wood case with integrated base, cherry-wood veneer, mechanical 8-day movement, every half and full hour is struck on two bells, (ding-dong), polished brass pendulum gong, mineral glass.

Large wall clock, end of the 19th century, solid wood case, walnut veneer with black-painted decoration, mineral glass, mechanical 14-day movement on supporting frame, every hour and half-hour struck on a gong, classical grid pendulum.

**390/4028 »Quattro-phon« quartz**  
Replikat nach altem Vorbild. Bogenschild in Metall, ornamentiert und vermessingt. Integrierter, versilberter Zahlenreif.  
Replica in accordance with an ancient model. Ornamental and brass-plated metal arch. Integrated, silver-plated figure ring, W 771

**368/6389**  
Kuckucksuhr, 1-Tag-Rechenschlagwerk auf Tonfeder mit Kuckucksruf über Blasebalg, massives Holzgehäuse, patiniert, handgefertigt. Bewegliche Figuren.  
Cuckoo clock, 1-day counting striking mechanism on a gong, with cuckoo call by means of bellows, solid wood case, patinated, hand-finished, moving figures.

324/1024 22,0 x 40,0 cm

324/1022 Ø 38,0 cm

320/4092 30,0 x 170,0 cm

324/1025 - Ø 16,0 x 25,5 cm

367/6046 Ø 30,0 cm

**324/1024 »Bim-Bim«**  
Romantische Tischuhr aus der Zeit um die Jahrhundertwende, massives Holzgehäuse, Nußbaum furniert, bedrucktes Mineralglas, mechanisches 8-Tage-Pendelwerk mit halbem und vollem Stundenschlag auf Glocke.  
Romantic table clock from around the turn of the century, solid wood case, printed mineral glass, mechanical 8-day pendulum movement, every full and half hour is struck on a bell.

**324/1025**  
Beliebter Wecker um die Jahrhundertwende aus poliertem, massivem Nußbaumholz, mechanisches Weckerwerk.  
Popular alarm clock around the turn of the century, made of polished solid walnut, mechanical alarm movement.

**324/1022 »Bim-Bim«**  
Traditionelle Schulhausuhr, ausgehendes 19. Jahrhundert, massives Holzgehäuse, schwarz lackiert, Mineralglas, mechanisches 8-Tage-Pendelwerk.  
Traditional school-house clock, towards the end of the 19th century, solid wood case, painted black, mineral glass, mechanical eight-day pendulum movement.

**367/6046 quartz**  
Klassisch-moderne Wanduhr aus den fünfziger Jahren, Design von Max Bill, geschliffenes Metall-Gehäuse, Metallzifferblatt, eingelegtes Mineralglas.  
Classical modern wall clock from the 50s, designed by Max Bill, polished metal case, metal dial, inlaid mineral glass. W 738

**320/4092 »4/4 Westminster«**  
Traditionelle Bildstöckchenuhr, Gehäuse in Nußbaum und Wurzelholz, patiniert. Ornamentiertes Messingzifferblatt mit aufgelegtem Zahlenreif, versilbert und diamantiert, Mineralglas, mechanisches Werk.  
Traditional shrine clock, walnut and root wood case, patinated. Decorated brass dial with fitted figure ring, silver-plated and diamondized, mineral glass, mechanical movement.

COLLECTION »HIGH TECH«  
»Solar 1«  
»RC 2«

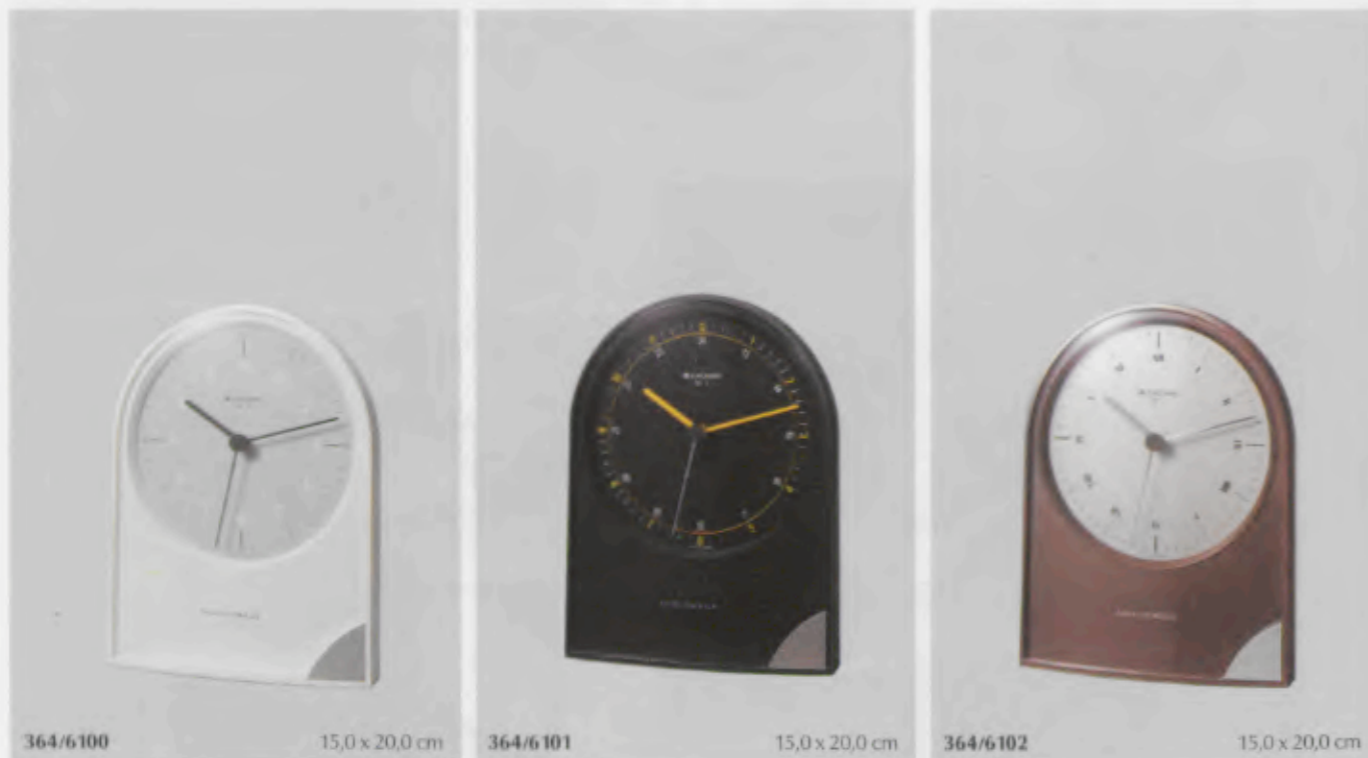

These are the clocks of the future. They have already been accepted by the market of today. Their technology is asserting itself as the most modern time measurement system on an international scale. JUNGHANS is leading the way in the development of these technologies. By presenting the RCS 1, the first radio-controlled solar clock in the world, Junghans has emphasized its claim to this leading position. JUNGHANS is a by-word for competence in these advanced technologies, offering a top quality range of second generation solar clocks and exclusive radio clocks. Clocks where the design also sets standards in high-turnover price sectors.

COLLECTION »HIGH TECH«  
**JUNGHANS RADIO-CONTROLLED CLOCK RC 2**  
 And suddenly the time is right. Forever.

The JUNGHANS RADIO-CONTROLLED CLOCK RC 2 is an absolutely precise table clock which automatically sets itself to the radio-transmitted time signal of the most accurate clock in the world – the caesium time base of the Physikalisch-Technische Bundesanstalt (Federal Standards Laboratory) in

Braunschweig. This clock is so precise that it can be expected to be accurate to within one second in one million years. Radio-controlled by this time base, the JUNGHANS RADIO-CONTROLLED CLOCK RC 2 is practically absolutely accurate. A transmitter call button permits reception to be checked continuously.

**Technical data:**

- Mains-dependent
- Typical operating time with 1 battery: (1.5 V baby cell IEC LR 14) ≥ 3 years
- Integrated radio receiver to receive the time signal transmitter: DCF 77 on 77,5 kHz
- Ferrite antenna with omni-directional characteristic
- Transmitter call button to check reception at any time
- Setting time with undisturbed reception: 2 – 9 mins
- Adjustment time (summer/standard time) 3 or 33 secs
- Time comparison with transmitter: every full hour
- Quartz time base: 32 kHz
- Operating voltage range: 1,3 – 1,7 V
- Operating temperature: -10° C – +60° C
- Average power consumption: typ. 85 µA

- 364/6100 white
- 364/6101 anthracite
- 364/6102 bronze metallic

Attractive, contemporary ABS case. Domed glass, integrated battery cover, indication of hours/minutes/seconds. Transmitter call button to check reception at any time.

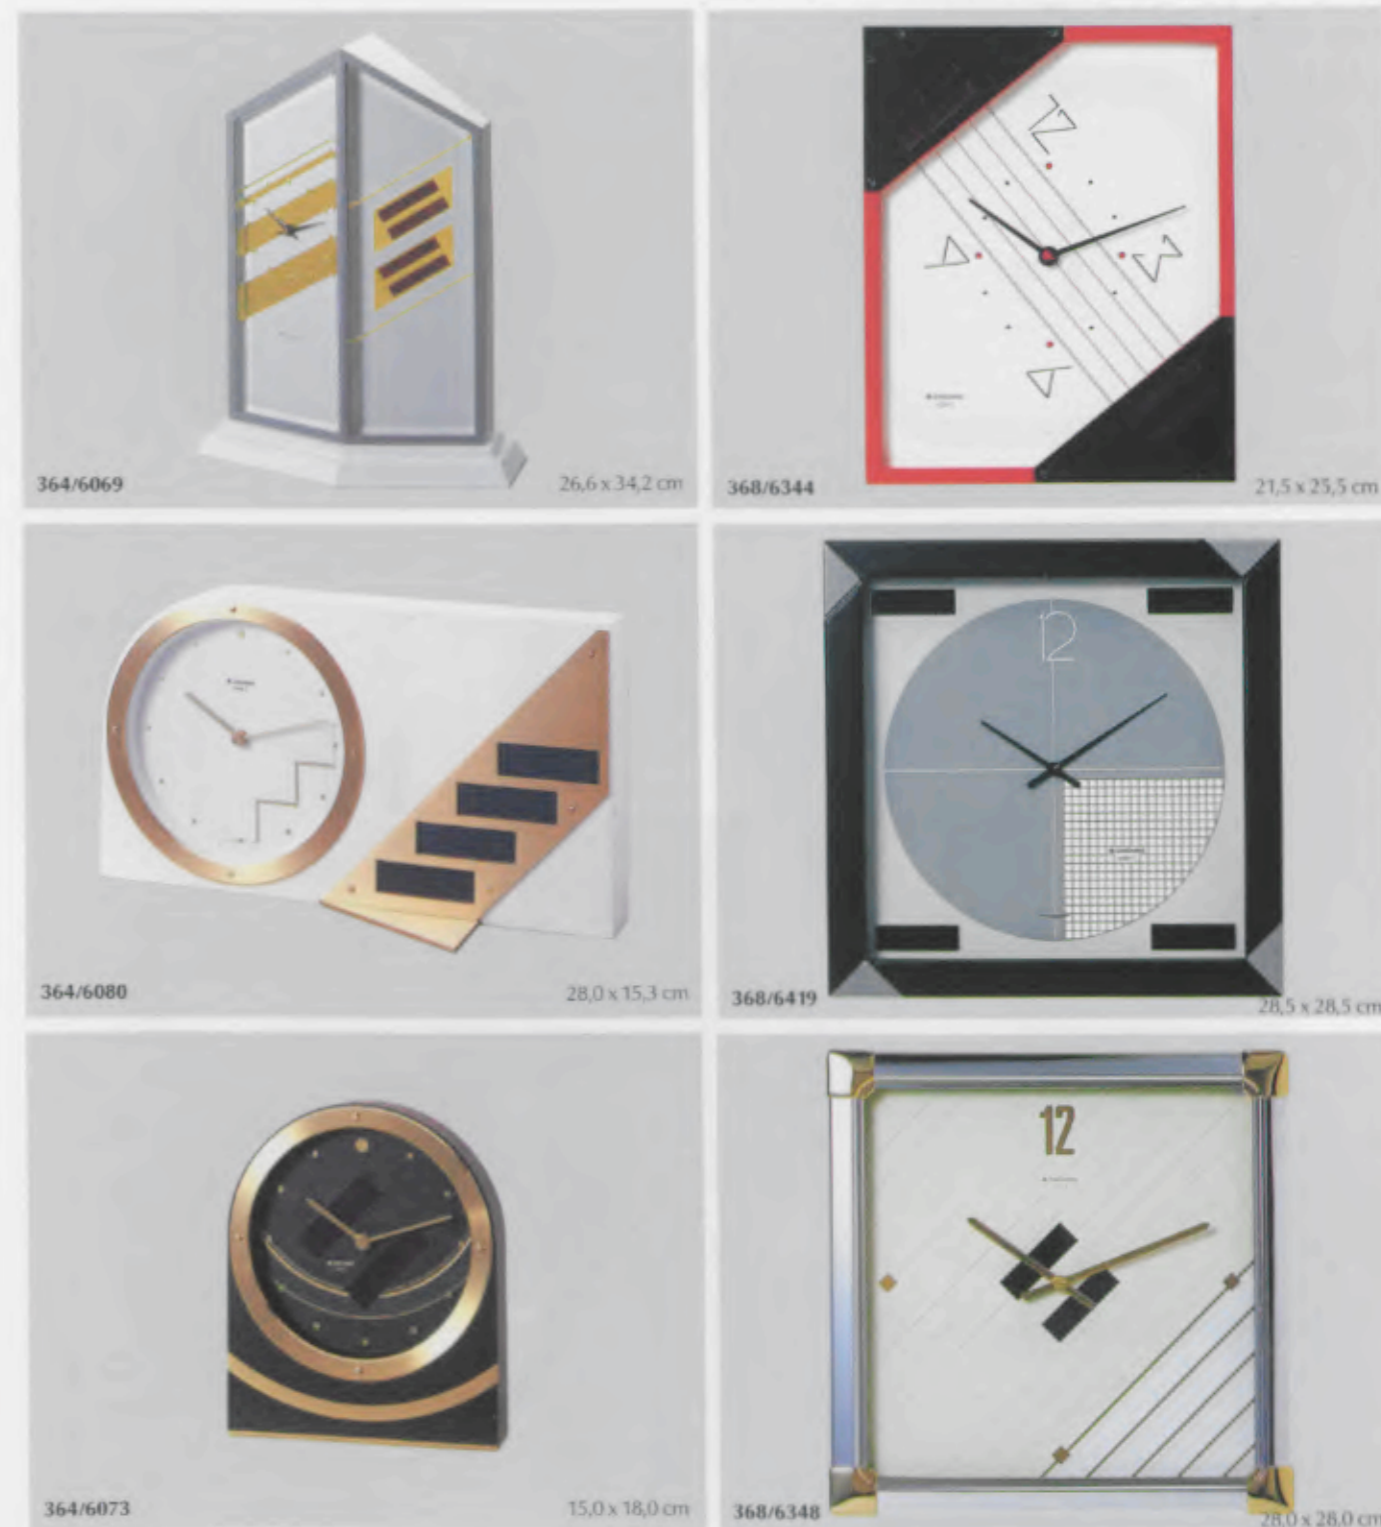

**Technische Daten:**

- Netzunabhängig
- Typische Laufzeit mit 1 Batterie (1,5 V Babyzelle IEC LR 14) ≥ 3 Jahre
- Integrierter Funkempfänger zum Empfang des Zeitzeichensenders: DCF 77 auf 77,5 kHz
- Ferritantenne mit Rundumcharakteristik
- Senderruftaste für optimale Empfangskontrolle
- Einstellzeit bei ungestörtem Empfang: 2 – 9 Minuten
- Umstellzeit (Sommer-/Normalzeit) 3 bzw. 33 Sekunden
- Zeitvergleich mit Sender: jeweils zur vollen Stunde
- Quarzzeitbasis: 32 kHz
- Betriebsspannungsbereich: 1,3 – 1,7 V
- Betriebstemperatur: -10° C – +60° C
- Mittlere Stromaufnahme: Typ 85 µA

- 364/6100 weiß
- 364/6101 anthrazit
- 364/6102 bronze metallic

Formschönes, zeitgerechtes ABS-Gehäuse. Gewölbtes Glas. Integrierter Batteriedeckel. Anzeige von Stunden/Minuten/Sekunden. Senderruftaste für optimale Empfangskontrolle.
