 JUNGHANS

JUNGHANS – The Company

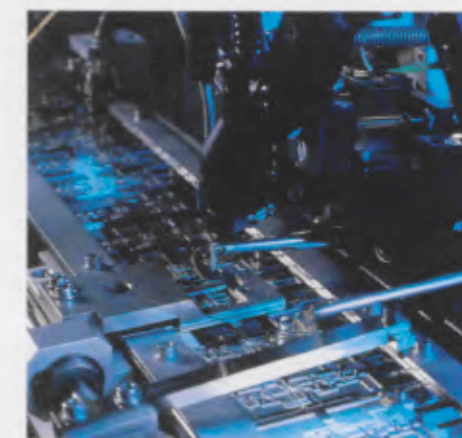

Schramberg is not perhaps one of the best known towns, but it has definitely not gone unnoticed in the watch and clock-making industry. JUNGHANS Uhren GmbH, the third-largest quartz watch and clock producers in the world, is located here in the district of Rottweil. JUNGHANS is a company with its fair share of tradition and is never short of new ideas.

More than 60,000 watches and clock movements are produced in Schramberg every day using modern automated watch and clock-making facilities. Ultramodern electronic equipment monitors and controls very high quality standards in all production processes.

JUNGHANS manufactures electronic wrist watches, alarm clocks, wall and mantel clocks, quartz movements, solar and radio-controlled clocks and watches. All of very high quality, accuracy and functionality using the most modern, future-orientated technologies. All good reason why JUNGHANS enjoys the image of an innovative watch and clockmaker.

Radio-controlled and solar clocks and watches are amongst the most popular on today's market. The first radio-controlled solar watch in the world, the JUNGHANS RCS 1, is proof of the great innovative strength and highest technological standards at JUNGHANS.

JUNGHANS brought out the world's first radio-controlled solar watch – the JUNGHANS RCS 1 – only 4 years ago lending these new technologies a new perspective.

JUNGHANS – The Trademark

The JUNGHANS trademark is considered to be the most traditional trademark for watches and clocks amongst German producers. It is known throughout the world for highest quality standards, reliability and above all innovative strength in technology and design as documented in countless awards.

Technological concept, function and design of JUNGHANS watches and clocks are constantly adapted to the changing attitudes and wishes of the consumer. Good reason why JUNGHANS is able to impressively provide a broad range of watches and clocks reflecting zeitgeist combined with innovative design and modern technology time and again.

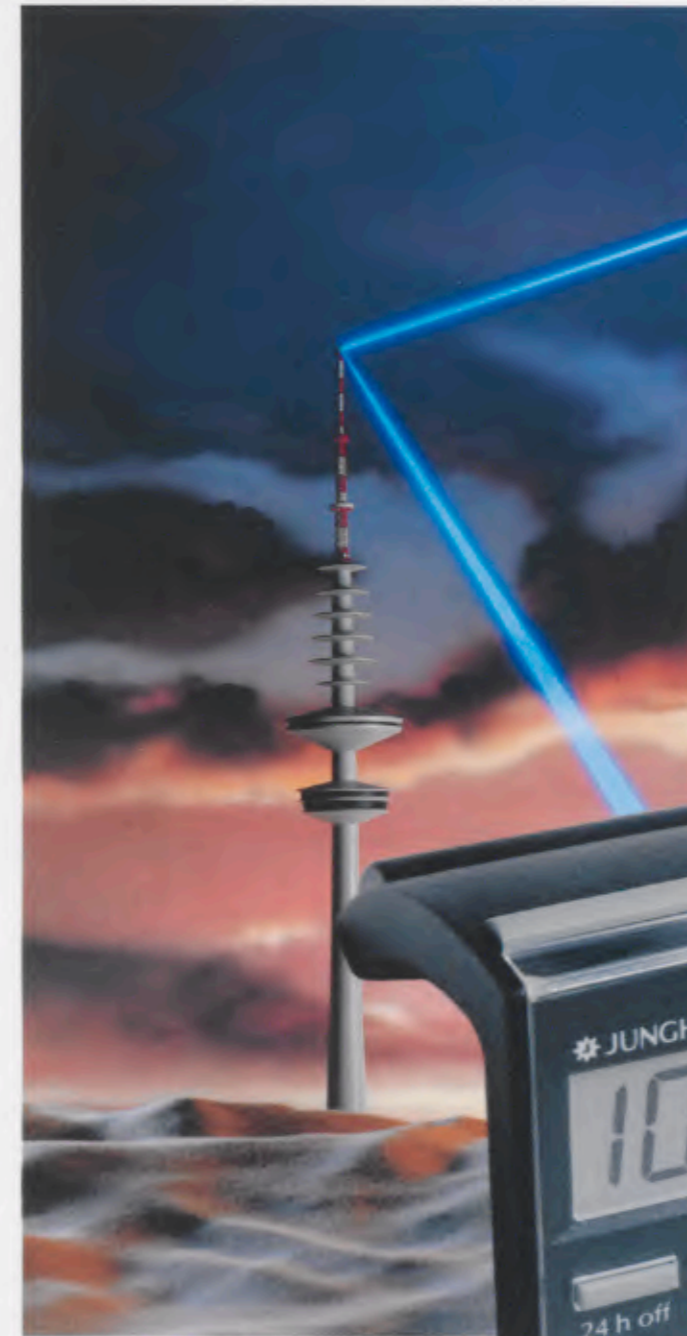

...the things which surround us are symbols of our constant search for individuality. Even if we have to create it first...

THEME: TECHNO-LINE

Technology determines the function. Design determines the appearance. Both stand for TECHNO-LINE from JUNGHANS.

Example:
THE NEW JUNGHANS
RADIO-CONTROLLED CLOCK
RC alarm 1

THEME: TECHNO-LINE

Technology determines the function.
Design determines the appearance.
Both stand for TECHNO-LINE from
JUNGHANS.

Example:

RC alarm 1

① Modell: 150/1000

Interlücke Milieu

② Modell: 150/1001

- Radio-controlled alarm clock and timer with LCD display
- Absolutely noiseless
- Indication of hour, minute and second
- Alarm time indication of hour and minute
- Indication of the date, day, month
- Optical reception control
- Alarm time: 1 minute
- Automatic repeating alarm (snooze) every 4 minutes
- 24 h "Off" automatism
- Runs for approx. 3 years with 1 battery (IEC LR 6)
- Independent from the mains supply
- Free of charge
- Fully automatic time adjustment and time change-over
- Case made of antistatic impact-resistant ABS material
- Size: 11.0 x 9.5 x 6.0 cm
- ① **Model: 150/1000 white**
- ② **Model: 150/1001 black**

The JUNGHANS radio-controlled message clock RC alarm 1 sets itself automatically to the correct time. Accurate down to the second. It receives a radio-transmitted time pulse from the world's most accurate clock - the caesium time base Braunschweig/Germany. So you need never set it. As all radio-controlled clocks from JUNGHANS it changes from summer to winter time and vice-versa. Fully automatically. It has an alarm function and reminds you of appointments with greatest precision. And your eternal calendar will never be mistaken.

You can check reception with the unique transmitter call button just to be absolutely sure.

THEME: TECHNO-LINE

Technology determines the function. Design determines the appearance. Both stand for TECHNO-LINE from JUNGHANS.

Example:
JUNGHANS "MASTER":
The alarm clock.

JUNGHANS has redefined the alarm clock with "MASTER": form, from frog-design, is aesthetic and ergonomic. Functionality that satisfies all requirements set by a consumer study. The result: a new generation of alarm clocks.

JUNGHANS "BLACK & WHITE"

...she still had the images of the vernissage in her head. Colours and impressions. But she was already looking forward to the evening: "Sleeping Beauty" - a ballet. She would not get home 'till late. On the way she quickly bought a small alarm clock...

THEME: MODERN-LINE

Alarm clocks to suit the times. Clear. Uncompromising. Colourful. And carefully designed down to the very last detail. Simply modern.

⑨ Modell: 130/2124

⑩ Modell: 130/2512

Mechanical table timer with minute dial and sweep seconds hand. Luminous figures. For recording periods from 1 second to 60 minutes. Accuracy: $< \pm 5$ seconds in 60 minutes ($20^{\circ}\text{C} = 68^{\circ}\text{F}$). The clock runs for 20 hours on one winding. Metal dial with 60 seconds, 1/100 minute, and 60 minutes graduation. Lacquered metal case. Movement is wound with key on back. Size: 21.5 x 25.0 x 10.0 cm

① Model: 312/2850 beige/brown

Same model as 312/2851, but with grey case and dial.

② Model: 312/2840 grey

Mechanical timer for wall mounting with seconds and minute hands. Luminous figures. For recording periods from 1 second to 60 minutes. Accuracy: $< \pm 5$ seconds in 60 minutes ($20^{\circ}\text{C} = 68^{\circ}\text{F}$). The clock runs for 20 hours on one winding. Metal dial. Case - front part made of ABS material. Metal back. Back key winding. 1/100 minute, and 60 minutes graduation. Lacquered metal case. Movement is wound with key on back. Size: 21.5 x 25.0 x 10.0 cm

③ Model: 312/2851 beige/brown

Mechanical timer with minute scale and sweep seconds hand. Luminous figures. For recording periods from 1 second to 60 minutes. Accuracy: $< \pm 5$ seconds in 60 minutes ($20^{\circ}\text{C} = 68^{\circ}\text{F}$). The clock runs for 20 hours on one winding. Metal dial. Case - front part made of ABS material. Metal back. Back key winding. 1/100 minute, and 60 minutes graduation. Lacquered metal case. Movement is wound with key on back. Size: 12.2 x 14.0 x 7.5 cm

④ Model: 312/4810 beige/brown

Mechanical wall timer with minute scale and sweep seconds hand. Luminous figures. Time periods from 1 second to 60 minutes. Accuracy: $< \pm 5$ seconds in 60 minutes ($20^{\circ}\text{C} = 68^{\circ}\text{F}$). Running time: 20 hours. Metal dial. Case front part made of ABS material. Metal back. Back key winding. Size: 12.2 x 14.0 x 7.5 cm

⑤ Model: 312/4811 beige/brown

Mechanical timer
• These can be set invariably and exactly up to 60 minutes
• Back bell
• Loud, pleasant bell signal
• Case made of ABS material
• Size: ϕ 6.0 cm
⑥ Model: 130/2120 white
⑦ Model: 130/2123 beige/brown
⑧ Model: 130/2124 white/black

Mechanical timer
• These can be set invariably and exactly up to 60 minutes

⑱ Modell: 028/3101

• Back bell
• Loud, pleasant bell signal
• Case made of ABS material
• Size: 6.9 x 6.9 cm
① Model: 130/2510 white
② Model: 130/2511 black/white
③ Model: 130/2512 red/white

Mechanical timer. Case front part made of ABS material, lacquered metal back. Total running time up to 60 minutes, continuously adjustable with pointer. Accuracy: $\pm 1/2$ section of the minute scale. Size: 12.2 x 13.2 x 9.0 cm

④ Model: 310/4460 beige/brown

Mechanical timer with preselection. Case front part made of ABS material, lacquered metal back. Preselection ring adjustable. Total running time from 2 - 57 minutes or for 60 minutes. Accuracy: $\pm 1/2$ section of the minute scale. Size: 12.2 x 13.2 x 9.0 cm

⑤ Model: 310/4560 beige/brown

Mechanical timer. Case made of ABS material. Total running time up to 60 minutes, continuously adjustable with pointer. Accuracy: $\pm 1/2$ section of the minute scale. Size: 12.2 x 13.2 x 9.0 cm

⑥ Model: 310/4831 beige/brown

Mechanical adding crown stopwatch. 15-minute dial. 1/10 second graduation. Metal housing, polished, diamond finished. Shock, dust and waterproof. 7 jewels.
⑦ Model: 028/0603

Mechanical crown stopwatch. 15-minute dial. 1/10 second graduation. ABS case. Shockproof. Size: ϕ 5.0 cm
⑧ Model: 028/0602

Mechanical crown stopwatch. 15-minute dial. 1/10 second graduation. ABS case. Shockproof. Size: ϕ 5.0 cm
⑨ Model: 028/0601

Quartz adding stopwatch. Minute and hour counter. Battery status display. 1/10 second graduation. Metal housing matt chromium-plated. Mineral glass. Shock, dust and waterproof. Suspension by cord. Size: ϕ 6.0 cm
⑩ Model: 028/0605

Three-circuit button stopwatch 1/10 second. Chromium-plated metal case. Shock, dust and water protected. 7 jewels. Size: ϕ 5.0 cm
⑪ Model: 028/3101

... measure, time, compare.
Time can be divided, allocated, but
can happily not be kept still...

THEME: CLOCKING AND TIMING

The JUNGHANS trademark is in
great demand for clocking and
timing in the laboratory, in play and
sport or at home. And not without
good reason. Reliability.
Functionality. And accuracy.
