

Collection Junghans Mega alarm 1 radio-controlled alarm clock and reminder clocks.

The fascination of radio-controlled clocks is due to their special technology and unrivalled precision. They are highly precise timekeepers, clocks which never need to be set or adjusted and which are always accurate to the second. For example, the Junghans Mega alarm 1.

Functions of the Junghans Mega alarm 1:

- * Radio-controlled alarm and reminder clock with LCD display
- * Display of hour, minutes and seconds
- * Alarm time display of hour and minutes
- * Trilingual display of day of the week in either German, English or French
- * Perpetual calendar (date, day and month)
- * Fully automatic time-setting and changeover to summer/winter time
- * Visual reception indicator
- * Illumination
- * Alarm duration: 120 seconds
- * Automatic snooze alarm at approx. 4-minute intervals
- * Automatic 24-hour alarm
- * Transmitter call button
- * Absolutely silent
- * Independent of mains power
- * No licence fees
- * Operates for approx. 3 years on a single mignoncelle
- * Case made of antistatic, impact-proof ABS material
- * Dimensions: 11.0 x 9.5 x 6.0 cm
