

Helena
JUNGHANS

Capture the beauty of the moment.
Forever.

Collection 2004/2005

"Germany's longest standing traditional brand, Junghans, presents Helena, a beautiful ladies watch collection. Named after the most beautiful woman in Greek mythology, it pays homage to the woman's eternal beauty and to the high esteem in which this great lady is held. Helena Junghans herself was one of the most impressive women during the

first half of the 20th century and she was also an important personality in the long history of Junghans, the company. Five centuries after her death, Junghans created a watch collection inspired by the authenticity of her name. Feminine qualities with a touch of luxury, harmoniously combined. The beauty of the moment-captured by Helena Junghans. Forever."

A combination of femininity and luxury.
