

## SPEKTRUM AUTOMATIC

Spektrum Automatic  
027/1502.00

For those who are like time  
itself: relentless.

Some believe in limits, others believe  
in themselves. With the Spektrum  
Automatic we have created a watch  
for all those who like to set their  
goals a little higher. A watch that is  
ready for anything: the combination  
of steel, ceramic and sapphire crystal  
means that it is resistant to even ex-  
treme conditions and water pressure  
up to 10 bar, making the Spektrum a  
sturdy companion where you need it  
most.
